

THEMEWEAVERS

WEBSITE DESIGN AND DEVELOPMENT

Themeweavers design websites from the simple to the complex. Using the latest technologies in web design, with a flexible, professional and affordable approach.

HERE ARE TEN QUESTIONS THAT WILL HELP US BUILD YOUR WEBSITE

1. Describe your organisation in a few sentences?
2. What kind of visitors are you expecting on your website (income, interests, gender, age)?
3. List the names of two or more other sites that you like. Why are they attractive to you?
4. What features should be used on your website (contact form, pictures, video, etc.)?
5. What would you like a visitor to do when coming to your website?
6. Do you have any colour preferences, look and feel for the website?
7. What do you not want on your site in terms of text, content, colour, graphic elements?
8. Where is the website content coming from and who is responsible for updating it?
9. Who are the decision makers on this project?
10. What is your deadline for completing the site and your budget?

Don't worry if you can't answer some of these questions, we would be pleased to go through them with you. Visit our website or contact us for a no obligation, informal chat.

We work closely with you to design a responsive, interesting and well designed website. With relevant information, and clear graphics, playing close attention to detail. We ask lots of questions to ensure we create the best website for you.
